

معرفی شرکت مهندسی بازرگانی سپید کالا انرژی

شرکت مهندسی بازرگانی سپید کالا انرژی در سال ۱۳۸۳ تاسیس گردیده و با سابقه بیش از ۱۲ سال در زمینه تامین کالا، نصب و راه اندازی انواع تجهیزات صنعتی با تکیه بر پیشرفته ترین فناوری روز دنیا در زمینه های ابزار دقیق، مکانیک، اتوماسیون صنعتی و سیستم های کنترلی، ارائه دهنده خدمات گسترده ای در پروژه های نفت، گاز، پتروشیمی، نیروگاهی، صنایع خودرو و سیمان می باشد. این مجموعه با بهره گیری از تجارب ارزشمند برترین سازندگان معتبر دنیا و داشتن دفاتر عملیاتی در کشور امارات، اروپا و شرق آسیا در لیست منابع کلیه وندور لیست های اصلی کشور از قبیل PKC، IOOC، POGC، NISOC، NIOC، NIGC و بسیاری از شرکت های معتبر در این حوزه قرار دارد.

در این راستا دپارتمان های تخصصی این مجموعه افتخار مشاوره مهندسی و تامین تجهیزات مورد نیاز طیف گسترده ای از مشتریان دولتی و خصوصی را مهیا نموده اند که کیفیت در ارائه خدمات پس از فروش، جلب رضایتمندی حداکثری و پاسخگویی سریع و با دقت به مشتریان همواره در اولویت کاری این شرکت قرار دارد.

این شرکت در حال حاضر نمایندگی رسمی فروش اقلام ابزار دقیق شرکت AZBIL(YAMATAKE) ژاپن در ایران را عهده دار بوده و تامین کننده انواع تجهیزات صنعتی از معتبرترین کمپانی های اروپا و آمریکا می باشد. در ذیل برخی از برندهای قابل ارائه توسط این شرکت آورده شده است.

برخی از مشتریان ما

About Azbil (Yamatake)

AZBIL (YAMATAKE) from **JAPAN** with over 100 years of work experience has been an active leader in many areas of process instrumentation and mechanical in both national and international markets. This company produces many instruments to different kind of industries such as oil, petrochemical, power generation, with providing after sales services including installation and spare parts.

Products

- Control Valves and Actuators
- Flow meters
- Pressure Gauges
- Level Gauges
- Pressure and Temperature Transmitter
- Switches and Sensors
- Analyzer (Natural Gas)
- Communicators
- Controllers (Temperature)
- Diagnosis of Factory and Plant Equipment

About ABB

ABB is a global leader in power and automation technologies and works closely with utility, industry, transport and infrastructure customers in roughly 100 countries. With more than four decades at the forefront of digital technologies, they are a leader in digitally connected and enabled industrial equipment and systems with an installed base of more than 70,000 control systems connecting 70 million devices.

Products

- PLC Automation
- Recorders and Controllers
- Analytical Measurement
- Low Voltage Generators
- Dodge CST gearbox
- Temperature Transmitter
- Pressure Measurement
- Temperature Measurement
- Flow Measurement
- Actuators and Positioners

About Fisher

Fisher valve and regulator technologies are born from Emerson's passion to increase customer process safety and efficiency, by defining the industry with more than 135 years of trusted innovations forging the future of flow control solutions. Control valves, regulators, and instrumentation are the most important devices which can be provided by Fisher.

Products

- Control Valves(Rotary Valves, Sanitary Valves, Sliding Stem Valves)
- Actuators(Electric, Manual, Pneumatic)
- Positioners and Accessories
- Digital Valve Controllers
- Regulators & Relief Valves
- Level Switch
- Level Transmitters
- Pressure & Temperature Controllers
- Transducers

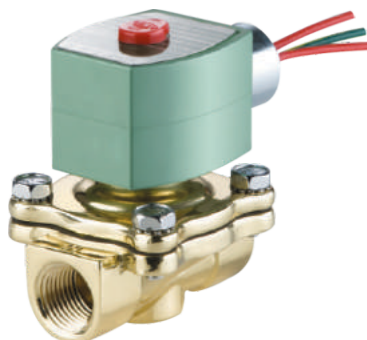

About Asco

ASCO is a leader in fluid power and fluid control markets. Several thousands of customers in various sectors such as the food, packaging, handling, chemical, petrochemical, energy, wood and paper, and automobile industries, trust ASCO for the industrial automation solutions. Pneumatic components and solenoid and pressure operated valves are the most important devices which can be provided by ASCO.

Products

- Solenoid Valves
- Motorized valves
- Pressure Operated Valves
- Proportional Valve
- Pilot Valves
- Pneumatic actuators
- Pneumatic equipment
- Air Preparation- Modular Air Preparation
- Pneumatic Valve - Directional Control Valve
- Digital control

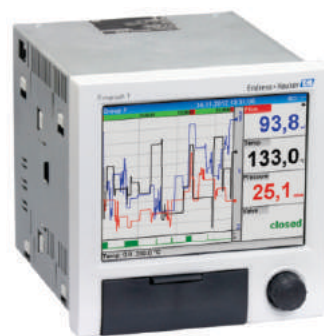

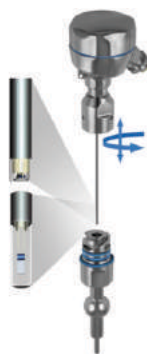

About Endress+Hauser

Endress+Hauser is a leading supplier of products, solutions and services for industrial process measurement and automation. They offer comprehensive process solutions for flow, level, pressure, analysis, temperature, recording and digital communications across a wide range of industries, optimizing processes with regards to economic efficiency, safety and environmental protection.

Products

- Electromagnetic Flow Meter
- Electronic Differential Pressure
- Temperature Measurement
- Flow Measurement for Liquid, Gases and Steam
- Liquid Analysis
- System Components and Data managers
- Level Measurement
- Pressure Measurement
- Industrial Communication devices

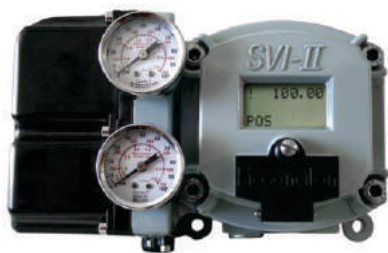

Masoneilan

About Masoneilan

Masoneilan offers over 125 years of innovation and control valve technology leadership to solve the most difficult process applications without compromise. Masoneilan, with 8 major manufacturing facilities worldwide, supported by an integrated network of global sales offices, provides the widest range of control valve solutions and services for virtually every process control application.

Products

- Digital Valve Positioner
- Globe Control Valves
- Rotary Control Valves
- Severe Service Valves
- Valve Actuators
- Level Transmitters
- Desuperheaters
- Pressure Reducing Valve
- Transducers
- Electro pneumatic Positioner

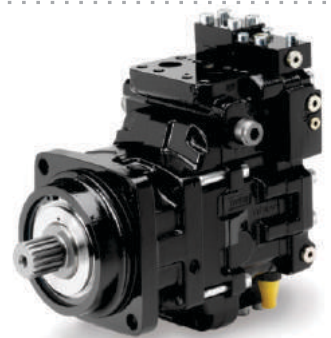

About Parker

Parker is the global leader in motion and control technologies, providing precision-engineered solutions for a wide variety of mobile, industrial and aerospace markets. At Parker we have an unmatched breadth and depth of products that originate from a global leadership position in nine core Motion and Control technologies that include aerospace, climate control, electromechanical, filtration, fluid and gas handling, hydraulics, pneumatics, process control, sealing and shielding.

Products

- Solenoid Valves
- Cylinders and Actuators
- Gas Generators
- Pumps
- Air Preparation and Dryer
- Motors, Drives and Controllers
- Power Take Offs and Drive Systems
- Regulators, Monitors, Sensors and Flow Control
- Fittings

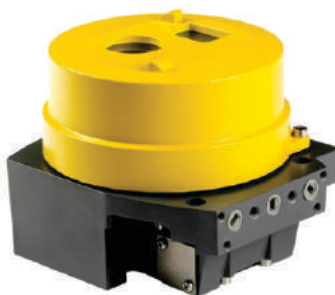

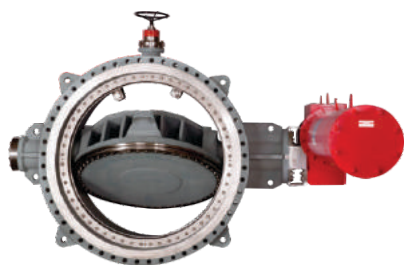

About Metso

Metso is a world leading industrial company serving the mining, aggregates, recycling, oil, gas and process industries. We help our customers improve their operational efficiency, reduce risks and increase profitability by using our unique knowledge, experienced people and innovative solutions to build new, sustainable ways of growing together.

Products

- Control Valve
- ON-OFF Valves and Controllers
- Emergency Shutdown Valves
- Crushers Systems
- Slurry Hose System
- Valve (BUTTERFLY, BALL, GLOBE)
- Actuators
- Positioner
- Segment Valves
- Intelligent Safety Solenoids

About Dräger

Dräger is a leading international company in the fields of medical and safety technology, which makes breathing and protection equipment, gas detection and analysis systems, and noninvasive patient monitoring technologies. Dräger founded in Lübeck in 1889 and has grown into a worldwide. This company is known to provide best solutions for personal safety and protecting production facilities.

Products

- Gas Detector
- Flow Meters
- Bump Test Station
- Pretests Alcohol
- Polytron Transmitter
- Detector Flammable gases
- Rescue and escape devices
- Regard Control Systems
- Portable Air Filtration Panel
- Temperature Transmitters

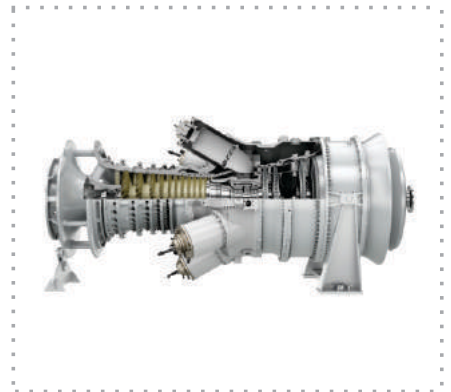

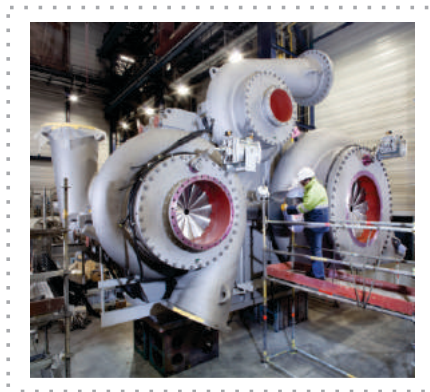

About Siemens

Siemens, as one of the global technology leaders offers made-to-measure products and technologies for electrification, automation, digitalization, water technologies, compression, and drives. Our products, systems, and solutions promote the effectiveness and efficiency of a plant's processes to achieve maximum success.

Products

- SCALANCE and RUGGEDCOM solutions
- SIMATIC industrial automation solutions
- Pressure transmitter for every industry
- Turbo compressor
- Electrical motors and variable-frequency drive (VFD)
- DATUM® Centrifugal Compressors
- SIMATIC PCS 7 Distributed Control System (DCS)
- SINUMERIK Computerized Numerical Control (CNC)

About Yokogawa

Yokogawa Electric Corporation is a Japanese electrical engineering and software company, with businesses based on its measurement, control, and information technologies. **Yokogawa** has a wealth of experience in every part of the oil and gas business, from offshore and onshore facilities to pipelines, terminals, and deepwater operations. We provide solutions that enhance safety, ensure accurate and reliable operation, and increase plant efficiency.

Products

- Gauge Pressure Transmitter
- Power Analyzers
- Generators , Sources
- Variable Area Flow meters
- Temperature Transmitter
- Vibration Sensors Series
- Portable Ethernet Tester
- Temperature Measurement
- Level Measurement
- Distributed Control System

About Mann Tek

Mann Tek is a coupling manufacturer, which produces and markets products for safe and environmentally friendly handling of aggressive fluids for the chemical and petrochemical industries. Mann Tek has many years of experience in designing, producing and marketing of DDCouplings since 1977. The main product is the Dry Disconnect Couplings for spill free liquid handling. The products are marketed through independent representatives in more than 30 countries and we are the distributor of this company in Iran.

Products

- **Dry Disconnect Couplings**

For handling any liquid, chemicals, gas etc.

- **Dry Aviation Couplings**

- **Dry Gas Couplings**

- **Dry Cryogenic Coupling**

- **Safety Breakaway Couplings**

Are used to prevent pull away accidents.

- **Cryogenic Breakaway**

- **Full Flow Ball Valves**

- **Swivel**
